Certification of Long Term Disability

Name of Insured: _____ Date of Birth: _____ (DD/MM/YYYY)

INSTRUCTIONS: This certification must be completed and signed by a registered nurse, registered social worker or licensed physician who is not a blood relative of the Insured named above.

SECTION A

Based upon my assessment of the above named Insured on _____ (DD/MM/YYYY), and in my professional opinion as certified by my signature below, the Insured requires hands-on or stand-by (within arm's reach) assistance to perform the following Activities of Daily Living (ADLs):

- ☐ Insured does not require assistance with ADLs listed below (**Proceed to Section B**)
- ☐ **Transferring:** moving in and out of chair or bed, with or without equipment.
- ☐ **Toileting:** getting to and from and off toilet, maintaining a reasonable level of personal hygiene and care of clothing.
- ☐ **Bathing:** washing oneself either in tub or shower, or by sponge bath, with or without equipment or adaptive devices.
- ☐ **Dressing:** put on and take off all garments, including fastening and unfastening medically necessary braces or artificial limbs usually worn.
- ☐ **Continence:** voluntarily control bowel and bladder functions, or in the event of incontinence, ability to maintain reasonable level of personal hygiene.
- ☐ **Eating:** getting nourishment into body by any means once it is prepared and made available.

I certify that the Insured requires Substantial Assistance with the checked activities for a period expected to last at least (check one):

- ☐ 30 days ☐ 60 days ☐ 90 days or more ☐ 180 days or more

SECTION B

Based upon my assessment of the above named Insured, and the definitions below of Severe Cognitive Impairment and Substantial Supervision, I certify by my signature below that (check the correct statement) :

- ☐ The Insured HAS a Severe Cognitive Impairment requiring Substantial Supervision. Attach documentation of diagnosis and standardized tests or measures performed.
- ☐ The Insured DOES NOT have a Severe Cognitive Impairment that requires Substantial Supervision.

Severe Cognitive Impairment – “Severe Cognitive Impairment” means a loss or deterioration in intellectual capacity that is:

- a) some form of irreversible dementia; and
- b) measured by medical evidence and standardized tests that reliably measure impairment in the individual's short-term or long-term memory; orientation as to people, places or time; deductive or abstract reasoning; and judgment as it relates to safety awareness; and
- c) clinically confirmed by an appropriate consultant.

Dementia is a brain syndrome that causes deterioration in intellectual function and other cognitive skills, as well as a decline in the ability to perform Activities of Daily Living. Typically, it causes progressive loss of memory, behavior changes and loss of functional ability.

Severe Cognitive Impairment results in a person's inability to care for self without Substantial Supervision by another person.

Substantial Assistance – “Substantial Assistance” means the life insured requires (a) the physical assistance of another human being to perform the Activity of Daily Living; or (b) the presence of another human being within arm's reach of the life insured that is necessary to prevent by physical intervention, injury to the life insured while the life insured is performing the Activity of Daily Living (such as being ready to catch the life insured if the life insured falls while getting into or out of the bathtub or shower as part of bathing).

Substantial Supervision – “Substantial Supervision” means the life insured requires continual supervision (which may include cuing by verbal prompting, gestures, or other demonstrations), by another human being that is necessary to protect the life insured from threats to health or safety as a result of the life insured's Severe Cognitive Impairment.
